Professional Summary

I am a 4th-year Computer Science and Engineering student at ASTU and a Junior full-stack Web Developer. I combine my technical skills in Next.js, React, and Python with my native fluency in Afaan Oromo to deliver high-quality work. I am dedicated to supporting the OroLLM project through accurate data scraping, text cleaning, and linguistic validation.

EXPERIENCE: (school final semester project)

Developed a responsive web interface using Next.js and React as part of a core software engineering project (nextjs dashboard)

Implemented clean UI components and managed application state to ensure a smooth user experience.(calculator,e-student-portal,...)

Utilized Git and GitHub for version control and collaborative coding within a student development team (scheduler)
